

WALKER MOWERS

KOHLER 31-HP LIQUID COOLED, FUEL INJECTION:

Key Operational Advantages:

- Liquid-Cooling means longer engine life
- More power with 30-40% fuel savings over 25-hp carbureted engine
- Remote Fuel Pump
- Easy troubleshooting with built-in, automotive-type diagnostics (service light on instrument panel)
- Easy starting over a wide temperature range (no choke)
- Electronically limited RPM over-rev
- Reduced exhaust emissions (clean running)
- Reduced maintenance
- Better throttle response
- Automotive fuel injection technology
- Engine runs continuously at optimum air/fuel mixture using oil temperature, oxygen, RPM, and throttle position sensors connected to an electronic control unit (ECU) -- automatically adjusts for varying atmospheric conditions
- Cost vs. value favourable to customer
